COURSE'S ROLE IN THE PROGRAM

Motion Graphics 1 follows Video & Audio Editing 1, adding moving graphics to photographic and cinematographic works. Students will learn how to compose animations, title sequences, plus animate illustrations, and photos. Much of the focus will be on design thinking and how to solve problems and communicate effectively using motion and animation. Students can incorporate learning from Sound Design for Multimedia which is taught in the same semester. Students will be able to apply what they have learned in this course in Video & Audio Editing 2, taught in the fourth semester. Motion Graphics 2, in the fifth semester will continue in the same direction.

COURSE OBJECTIVES & LEARNING ACTIVITIES

Use motion graphics to communicate complex or difficult-to-grasp material for diverse audiences and contexts adhering to professional motion graphic industry standards.

- Compose animations and title sequences
- Animate illustrations and photos
- Apply analog and digital animation techniques
- Combine motion graphics with video and audio in an integrated multimedia project
